

## F04

# SAFE MANAGEMENT OF UPROOTED, BROKEN, LEANING AND HUNG-UP TREES

► **Pre-Course Requirements:** To attend this course trainees must already hold a qualification in Chainsaw Maintenance, Cross Cutting and Felling and Processing Medium Trees up to 760mm.

This course is designed to follow course F03. It is for experienced operators wishing to understand the complexities of managing uprooted, broken, leaning and hung-up trees and the operation of the associated equipment including the industrial portable winch.

### Why Treepartner Training?

- 2:1 trainee to instructor ratio
- Delivered by instructors with extensive and current experience
- Increased timescale to accommodate necessary content and enable trainees to consolidate chainsaw skills under supervision
- Provides an opportunity to update existing chainsaw skills

■ **This 3 day course** will cover the following topics:

- Legislation
- Risk Assessment
- Felling technique update
- Chainsaw techniques for managing uprooted, broken, leaning and hung-up trees
- Selection and inspection of a range of winch equipment
- Hand winch setup and operation for the management of uprooted, broken and hung-up trees
- Set up and operation of a portable industrial power winch for moving timber
- Planning the felling sequence when managing multiple windblown sites

### COURSE FEES

Price per person (3 days)	£700
---------------------------	------

### Notes

- On completion of the training, a Treepartner Training Record of Training and Achievement (certificate) will be issued.
- Following successful completion of the training, Treepartner Training Ltd can organise the related City & Guilds NPTC Level 3 Certificate of Competence in Dealing with Interwoven Stems and Part Blown Trees (Qualification No: 0039-35).
